

Adjusting your email updates from your forum

On the forum page click the button 'Membership and email settings'.

A new window will open up. About half way down on this window you will see a drop down list (see red arrow below).

When you click on the drop down box you will see several options.

Pick the option that best fits how you want to receive updates when other members post to the group. Click the save button and you are all set.

te
B

Some members of the group can find your email address. Anyone with your email address could discover your Google Profile. [Learn More](#)
